

FOR SALE

19' Memory, modified to a yawl rig with twin headsails and topsail. One of the early (c 1980) Liverpool boats of Tony Robinson design. The wooden mast and spars are well varnished and the wooden blocks and tackle are all in keeping with her heritage. She is a perfect, single handed, traditional day boat with a surprising turn of speed. The small cuddy provides 'Spartan' twin births, which works well with the boom tent for any adventurous campers.

The ancient Yanmar PMX6 inboard diesel is scruffy, but very reliable. Its electric start is off twin batteries with solar charging. She is generally in sound condition and a very pretty boat, much admired in her home port of Torquay.
